Per our conversation, I have attached several tabulations of bills introduced in the 86th Congress relating to a Joint Committee on Intelligence matters. One is simply a chronological listing indicating the author and date of introduction with history of previous bills introduced. The other tabulation attempts to group the various bills or resolutions in accordance with their general subject matter. Additionally, I have included a copy of an AP ticker item dealing with the action of the House Rules Committee early this year on the proposal for a Joint Committee on Intelligence. If you need anything further, please let me know.
